The Bloomfield Record.

VOL. VIII. BLOOMFIELD, N. J. FRIDAY, FEBRUARY 27, 1880. NO. 371.

A Revolutionary Essay.

The Rev. M. C. Lockwood, of Paterson, at the Baptist Minister's Meeting held in that city on Monday read an essay which created considerable discussion and was criticized by several other ministers as "revolutionary." The subject chosen by Mr. Lockwood was "Christ's method of reaching the working classes, and our duty toward them." He said the ministers were not reaching these people. The evils existing and to be removed were the heartlessness and tyranny of wealth in the form of organized capital, of monopolists and speculators who take advantage of the weakness and extremities of the poor. He spoke of Christ's way of reaching the poor, that he never acted the sycophant to wealth, and that his methods in these days would be styled communistic. "The duty before us" he said, "is to meet with all the moral power we possess the sin and oppression of corporations, the inhumanity of monopolies, and the organized selfishness of capital. The facts are that men in this city work seven days in the week, and are allowed five hours for sleep out of every twenty-four; there are girls of tender years who stand twelve and fourteen hours at counters and looms, eking out their scanty wages at the sacrifice of health and life; there are children who should be at school and at play who from morn till night are kept on the treadmill in our stores, learning only in how many different ways and tones the word 'Cash' may be sounded; working in the silk factories are children from 7 to 13 years old, who can neither read nor write, and are ignorant and depraved. Christ's method of dealing with the poor was always successful, and the ministers ought to follow it."

In reply to the essay, the Rev. Dr. Read of Williamsburgh said that when ministers said to the poor, "the rich oppress you," they seemed to be stimulating revolution. He believed the poor were their own worst enemies, because of their tendencies to vice.

The essayist, in reply, said that if he preached revolution it was by gospel methods, and not by anarchy. A man in Wall street turns over $20,000,000 in a day. He takes it away from other men. Is it right? Communism is not a creature of to-day: it is primitive and patriarchal, and some of the brethren do not seem to know it. He repudiates the interpretation of Mr. Moore, that he was attempting to array class against class.

New Church in Montclair.

The new Chapel at Upper Montclair was dedicated last Sunday. It was expected by many residents in the vicinity that the Chapel was to be undenominational, and hence considerable dissension has been caused by its dedication as a Presbyterian Church. A correspondent of the Newark *Advertiser* reports the case as follows:

The population is made up of Presbyterians, Congregationalists, Dutch Reformers, a sprinkling of Methodists and non-sectarians. The Presbyterians assert that the structure was erected under their auspices and principally with money subscribed by their denomination, and that they have always regarded it as their own. This view of the case is repudiated by the people of the vicinity, who claim that they have for nine years been contributing to a fund for the erection of this chapel, with the understanding that it should be a "Union" chapel and not set apart for the use of any particular denomination. Harvest home festivals were held among them and money was obtained through fairs, sewing societies and subscriptions from the Sunday School. The latter institution was always conducted on the "Union" plan, although its Superintendent was a Presbyterian. The congregation proposed to engage a clergyman to conduct non-sectarian services on Sunday afternoons. Great was their amazement when they were informed by Mr. Littell that the Presbyterians proposed to assume exclusive control of the new church. Indignation meetings were held, and a committee was appointed to remonstrate. Their remonstrance, however, was useless, and the dedication was carried into effect on Sunday last. Clergymen of all denominations in the vicinity were invited to attend by Rev. Dr. Berry, of the Montclair Presbyterian Church, who officiated. None, however accepted save two of Dr. Berry's persuasion; and one, it is said, sent a rather sharp letter.

Opening of Music Hall, Orange.

Arrangements have been perfected for the grand opening entertainment which is to take place in Music Hall, corner Main and Day sts., Orange, on Thursday evening, March 4th, the full and official programme of which will be found in another column. A fine programme of music by Grafulla's Seventh Regiment Band has been made, and the affair will no doubt be very brilliant. The tickets of admission to the opening will be only $1.50, and will be sold separately from those to the succeeding entertainments. The following week a grand concert, with orchestra under the leadership of Dr. Damrosch, and fine vocal and instrumental solo talent, will be given, and probably a week later another similar concert, with Thomas as the leader of the orchestra, will complete the series of opening entertainments. To each of these the admission to best parts of the house will be $1.50.

LOCAL ITEMS.

Township Election on Tuesday, March 9th.

The Democratic Executive Committee will meet on Monday evening next, at Cohen's Hotel.

The Essex County Teachers' Association will, by invitation, visit the Stevens Institute at Hoboken, on Saturday of next week.

The quarterly Teachers Examination, which was to be held in the Center School house on Saturday, will be held in Montclair instead.

Mr. Philip Weaver is named as a candidate for Justice of the Peace at the ensuing election if he accepts, he ought to be elected by a large majority.

The masquerade ball given by the Bloomfield Macnamchor on Monday evening, in Raab's Hall, was the most successful ever given by this society.

Extra meetings have been held this week in the lecture room of the First Presbyterian church. Dr. Berry, of Montclair, preached on Wednesday evening.

The annual township meeting to receive the report of the Township Committee and recommend appropriations to be voted at the coming election, will be held at Library Hall on Tuesday evening next.

Through the courtesy of Stanford & Sage a fresh lot of Florida oranges from the celebrated grove of Wm. King, will be found at Mr. C. C. Dawkins' new store every week. This fruit is certainly the finest that comes from Florida.

The Gospel Temperance meeting was packed last Saturday evening. Mr. Charles Nash, a newspaper carrier from Brooklyn, delivered a very telling address. The interest in these gatherings is on the increase, and soon the room will be too small for the audience.

Misses Covel and Hunt, teachers in our Public School, went to Quincy, Mass., on Wednesday, to visit the schools of that city. The teachers generally are devoting their time to visiting the schools of Newark and New York, during the time necessary for repairing the steam apparatus at the Center building.

The local political campaign has not yet opened. If the custom of the past few years is to be repeated, the Republican managers will call their primary meeting next week, nominate a "straight" ticket, and the "Opposition," consisting of Independent Republicans, Greenbackers and Democrats, will follow with a Union ticket, choosing candidates irrespective of party lines. This has been the programme for a number of years, and although the opposition has never made a clean sweep, they have had a minority representation on the town committee, and have doubtless secured for the town a much more careful administration of affairs than would have been the result otherwise.

Edward R. Stoutenburgh, who was on Tuesday convicted in the Court of Quarter Sessions, Newark, on a charge of embezzling a $1,500 diamond from a ring owned by Mrs. Leavitt of West Orange, was yesterday committed to the Essex County Jail by order of Judge Ludlow McCarter. Stoutenburgh had furnished bail in $4,000, but Judge McCarter received information that led him to believe that the bail would not secure Stoutenburgh's appearance in Court on Monday next. Judge McCarter therefore instructed Sheriff Van Rensselaer to arrest Stoutenburgh. Deputy Sheriff Hallgring arrested Stoutenburgh, and Judge McCarter at once sent him to jail. Stoutenburgh was much affected by his arrest.

MR. EDITOR:—It is quite well known that the members of the Bloomfield Amateur Cornet Band intend giving an entertainment on March 10th, nevertheless we take the liberty of advertising it still more. We consider it and we wish others to consider it as a town institution, if we may use the word in that connection. For instance, if it was generally known—as it may be this Summer—that we had music on the "Mall" or our town "square" every once or twice in a while, real estate would advance, Summer boarders would increase, etc. Again, we expect to be called upon from time to time to furnish music for sas, strawberry festivals, Sunday School picnics, etc., all of which we will gladly do "free gratis for nothing" except expenses paid, or in the shape of complimentary tickets. But soberly, we wish every one that can will support us. The tickets are very low, —25 cents, including reserved seat, so that the average young man can take his "sisters, his cousins and his aunts" without impoverishing his purse. A MEMBER.

A fine musical treat is announced for to-night in Westminster Church, it being the concert in aid of the German Theological Students. The proceeds are to be used toward purchase of a piano for the Seminary. The programme announces a brilliant array of musical talent and will embrace both vocal and instrumental music, consisting of quartettes with Piano, Organ, Violin and Violoncello, also vocal quartettes, both single and double.

The Janitor of the Centre School building, upon kindling a fire under the steam boiler on Monday, found that it was leaking badly, and consequently he was obliged to put out the fire. The Trustees thought that a thorough inspection should be made, and a boiler maker was sent for from Newark. The result was that the flues of the boiler were discovered to be in an unserviceable condition, requiring a removal of the apparatus to the shop for a complete overhauling. This was at once done, but the repairs, re-setting of the boiler, etc., will require several days. It is expected that the work will be completed Tuesday night, and that the School will open again on Wednesday of next week.

The Legislature.

The Senate on Tuesday passed Mr. Bodine's bill to publish the laws in pamphlet form instead of in the newspapers. This matter had been discussed in the Republican caucus, but no action was taken. Mr. Bodine said it would save the State $50,000 annually. Mr. Beekman strongly favored its passage, and said that in his county, nine out of ten would favor such measure. Mr. Francis said that this bill was neither a caucus nor a political measure and each should vote as his conscience dictated. A paper whose existence depended upon such a patronage was of very little consequence either to the Democratic or Republican party. He believed that if it were put to a vote throughout the State, the people would declare in its favor by a large majority. Mr. Sewell opposed, maintaining that if the people demanded the publication of the laws in the newspapers they should have them. He considered them an essential part of the education of the State. The bill passed, 16 to 4.

The bill which has been reported concerning townships, does not make the sweeping changes which the other bills are said to propose. It provides, in brief, that township elections shall be held on the second Tuesday of March in each year: that a Township Committee, Collector and Assessor shall be elected; that the Township Committee shall consist of three members, one of whom shall be of the minority; that all shall take the oath and shall be fined if they refuse to serve after being elected; That a Treasurer shall be elected from among the members of the committee, who, like the Assessor, Clerk and Collector, shall give bonds; that all road taxes shall be paid in money; that taxes shall be a first and paramount lien on real estate; that the Collector shall proceed to advertise the sale of lands on which taxes are due, within four months of the time they become payable, and shall sell such lands for a term of years; the owner shall have the privilege of redeeming the lands within two years on payment of the taxes and twelve per cent per annum interest; that the Clerk of the county shall make a record of the tax sales; that a tax sale shall give the holder the right to immediate possession; that salaries shall be kept within the limit at present fixed by law; that bonds may be issued to meet liabilities incurred after suit at law; that bonds may be reissued, and that all acts, inconsistent with this act, shall be repealed.

The celebration of Washington's Birthday on Monday evening last in Library Hall, under the management of the Gospel Temperance people, was a very appropriate observance of the holiday. There were not less than six hundred persons present. Bloomfield's "old flag," which has been retired from active out-door service, was displayed, and the Bloomfield Amatuer Cornet Band played national airs and surprised their friends by the progress they made.

Mr. Chauncey Shaffer, the orator of the evening was received with hearty applause and made a very acceptable address upon "Washington and his Time." It was listened to with attention, and with marked approbation. In politics Mr. Shaffer is evidently an old-fashioned Democrat, of the Jackson School. He did his subject ample justice, and his most telling hit, and one which evoked the greatest applause, was his denunciation of the third term.

Atlantic County, N. J., will ask for more legal protection for deer.

New Jersey is the only State in the Union that manufactures it own metallic carirriges.

Rev. D. F. Owen, formerly a member of the Newark M. E. Conference, has been convicted of swindling in Pennsylvania, and sent to State Prison.

The Third Presbyterian Church, of Trenton, which was burnt last 4th of July, has been rebuilt and was dedicated Thursday by a sermon by the Rev. Dr. Cuyler, a former pastor.

It is rumored that a company of New York capitalists will run a line of steamers between that city, Atlantic City and Cape May next summer, provided the Atlantic City people will build a pier.

Work has been commenced in the nickel mine at Brass Castle, Warren county. The ore grows more valuable as the mine is developed. At present the prospect is very flattering that the deposit will prove one of the richest in that section of the country.

Ellen Mowrey, nineteen years old, and very beautiful, the daughter of Ethal Mowrey, a well to do farmer of Mount Pleasant, in a fit of melancholy, hanged herself to the door of her bedchamber Saturday morning. She had just broken off an engagement with her lover, by demand of her father, and this cause only is assigned for the act.

Schuyler B. Jackson, ex Speaker of the Assembly, on Saturday made an application to Judge Knapp for a summary investigation of the accounts of the Town Treasurer and the Police Justice of Harrison, who are suspected of having spent town money illegally. Judge Knapp ordered the investigation, and will appoint an expert this week.
